

PATHWAY TO ADMISSION

An expansion of the Starbucks
College Achievement Plan

Pathway to Admission is an expansion of our Starbucks College Achievement Plan benefit. Through this program, Starbucks and Arizona State University (ASU) provide an admissions pathway for partners who are interested in earning their first bachelor's degree. Eligible partners who do not qualify for admission into ASU can take up to 10 courses (with credit conversion costs fully covered) to earn their admission into the university.

HOW THE STARBUCKS COLLEGE ACHIEVEMENT PLAN WORKS

100% tuition coverage. As you earn your bachelor's degree online from ASU you will receive reimbursement for full tuition coverage. ASU's Financial Aid team is ready to answer any of your finance-related questions.

Over 100 degree programs. You can choose from more than 100 undergraduate degree programs, offered 100% online in various interest areas.

Flexible learning experience. Interactive online courses delivered by the same world-class ASU faculty that teach on campus. Go at a pace that is right for you (many partners take just one class at a time).

Customized orientation. An orientation course designed specifically for the Starbucks College Achievement Plan to help you prepare for online learning.

Personalized support every step of the way. You have a team of people invested in your success: Enrollment Coach, Financial Aid Counselors, a personal Success Coach, Academic Advisor, Career Services and more!

HOW PATHWAY TO ADMISSION WORKS

A personalized plan and support. Every partner's situation is unique. ASU will work with you to create a plan to earn admission (including the number of courses and GPA you need).

Preparation. ASU offers an orientation course to help you prepare for online learning.

Courses for college credit. You're only responsible for a \$25 fee per course, paid up front. Once you pass with a grade needed for your plan, we cover the cost of converting that course to your ASU transcript. This means you can immediately begin taking ASU classes that, once admitted, count toward your degree at ASU.

An accredited university experience, delivered online. You get the same coursework and learn from the same world class ASU faculty as partners who are in the Starbucks College Achievement Plan.

Flexibility. Take one course or multiple courses at a time. It's up to you and your schedule.
